

# The Uprooted

*By Oscar Handlin*

The Uprooted is a rare book, combining powerful feeling and long-time study to give us the shape and the feel of the immigrant experience rather than just the facts. It elucidates the hopes and the yearnings of the immigrants that propelled them out of their native environments to chance the hazards of the New World. It traces the profound imprint they made upon this world and how they, in turn, were changed by it.
